RELATIONSHIP CHAPTER

LeMasters and his “83%” figure

LeMasters, E.E. “Parenthood as Crisis “. *Marriage and Family Living* 19 (1957): 352-55.

Over 25 studies show that marital quality drops in the transition to parenthood, often precipitously.

Belsky, J., and J. Kelly. *The Transition to Parenthood: How a First Child Changes a Marriage and Why Some Couples Grow Closer and Others Apart*. New York: Dell, 1994.

Belsky, J., and M. Rovine. “Patterns of Marital Change across the Transition to Parenthood: Pregnancy to Three Years Postpartum.” *J of Marr & Family* 52 (1990): 5-19.

Marital quality decreases precipitously in 40% to 67% of married couples beginning within the first year of the baby’s life

Shapiro, A., et al. “The Baby and the Marriage: Identifying Factors That Buffer against Decline in Marital Satisfaction after the First Baby Arrives. .” *J of Fam Psych* 14, no. 1 (2000): 59-70.

90% satisfaction-loss figure

Doss, B.D., et al. “The Effect of the Transition to Parenthood on Relationship Quality: An Eight-Year Prospective Study.” *J Pers & Soc Psych* 96 (2009): 601-19.

33%–50% of new parents have as much stress as distressed couples already in counseling

Twenge, J.M, et al. “Parenthood and Marital Satisfaction: A Meta-Analytic Review. .” *J of Marr & Family* 65, no. 574-583 (2003).

Marital quality consistently declines in a predictable pattern: first for the wives, then for the husbands

Belsky, J., and E. Pensky. "Marital Change across the Transition to Parenthood." *Marr & Fam Rev* 12 (1988): 133-56.

Marital satisfaction actually peaks in the last trimester of pregnancy, then begins to decline

Heinicke, G. "Marital Adaptation, Divorce and Parent-Infant Development: A Prospective Study." *Inf Mental Health J* 18 (1997): 282-99.

Marital satisfaction quote

Lawrence, E., et al. "Marital Satisfaction across the Transition to Parenthood." *J Fam Psychol* 22, no. 10 (2008): 41-50.

Baddock, S.A., et al. 2006. “Differences in infant and parent behaviors during routine bed sharing compared with cosleeping the home setting.” *Pediatrics* 116:1599-1607.

Cosleeping in the west

Willinger, M., et al. 2003. “Trends in infant bed sharing in the United States, 1993 – 2000.” *Arch Ped Adol Med* 157:43-49.

Gettler, L.T., and J.J. McKenna. 2010. “Never sleep with Baby? Or keep me close but keep me safe: eliminating inappropriate “Safe Infant Sleep” rhetoric in the United States.” *Curr Ped Rev* 6:71-77.

Extinction/reinforcement behavioral modification explained

Gluck, M.A., et al. 2008. *Learning and Memory, from Brain to Behavior*. New York: Worth Publishers. p. 244-52

Unmodified extinction vs camping out methods

Price, A., et al. 2013. “Let’s help parents help themselves: a letter to the editor supporting the safety of behavioural sleep techniques.” *Early Hum Dev* 89 (1): 39-40.

Suggestions from Ferber

Ferber, R. 2006. *Solve Your Child’s Sleep Problems*. New York: Simon & Schuster. p. 21-22

Schedule: p. 74

Babies won’t like it at first: p.79

Need to switch plans if the schedule isn’t working: p. 83-84

Post-extinction burst

France, K., et al. 1991. “Infant sleep disturbance.” *Cur Pediatrics* 13:241-246.

Sleepy-baby video

djripsaw. 2011. “Funny baby sleeping and eating (VERY FUNNY).” http://www.youtube.com/watch?v=9nw__UuiZNE.

Graduated extinction most common Western approach

Jenni, O., and B.S. O’ Connore. 2005. “Children’s sleep: an interplay between culture and biology “ *Pediatrics* 115:204-216.

CIO methods work

Mindell, J., et al. 2006. “Behavioral treatment of bedtime problems and night wakings in infants and young children.” *Sleep Med* 29:1263-1276.

Intermittent reward hardest behavior to extinguish

Bouton, M.E. 2004. “Context and behavioral processes in extinction.” *Learn Mem* 11 (485-494).

Parents need to be consistent in applying CIO

Blunden, S.L., et al. 2011. “Behavioural sleep treatments and night time crying in infants: challenging the status quo.” *Sleep Med Rev* 15 (5):327-334.

CIO not universally embraced

Sherizen, B. “The Problem with the Ferber Method.” *Kveller: a Jewish Twist on Parenting* (2012). <http://www.kveller.com/blog/parenting/the-problem-with-the-ferber-method/>.

Nocturnal breast-feeding interferes with sleep consolidation

Burnham, M.M., et al. 2002. “Nighttime sleep-wake patterns and self-soothing from birth to one year of age: a longitudinal intervention study.” *J Child Psych Psychiatry* 43 (713-725).

DeLeon, C.W., and K.H. Karraker. 2007. “Intrinsic and extrinsic factors associated with night waking in 9-month old infants.” *Inf Behav Dev* 30:596-605.

Cosleeping results in less sleep for parent and child

Mindell, J., et al. 2010. “Cross-cultural differences in infant and toddler sleep.” *Sleep Med* 11: 274-280.

Cosleeping interferes with sleep consolidation – polysomnographic data

Mosko, S., et al. 1997. “Infant arousals during mother-infant bed sharing: implications for infant sleep and sudden infant death syndrome research.” *Pediatrics* 100:841-849.

Active physical comforting interferes with sleep consolidation

Morrell, J., and M. Cortina-Borja. 2002. “The developmental change in strategies parents employ to settle young children to sleep, and their relationship to infant sleeping problems, as assessed by a new questionnaire: the parental interactive bedtime behavior scale.” *Infant Child Dev* 11:17-41.

Touchette, E., et al. 2005. “Factors associated with fragmented sleep at night across early childhood.” *Arch Pediat Adolesc Med* 159:242-249.

CIO is hard on parents

Lawton, C., et al. 1991. “Treatment of infant sleep disturbance by graduated extinction.” *Child Fam Beh Ther* 13 (39-56).

Object permanence in young infants (general review)

Baillargeon, R. 2004. “Infants’ reasoning about hidden objects: evidence for event-general and event-specific expectations.” *Dev Sci* 7 (4):391-414.

Evidence that object permanence is available with 8 month olds

Cacchione, T. 2013. “The foundations of object permanence: does perceived cohesion determine infants’ appreciation of the continuous existence of material objects?” *Cognition* 128 (3):397-406.

Evidence that object permanence is available with 3.5 month olds

Aguiar, A., and R. Baillargeon. 2002. “Developments in young infants’ reasoning about occluded objects.” *Cogn Psychol* 45 (2):267-336.

Cortisol and sleeping styles

Middlemiss, E., et al. 2012. “Asynchrony of mother-infant hypothalamic-pituitary-adrenal axis activity following extinction of infant crying responses induced during the transition to sleep.” *Early Hum Dev* 88:227-232.

Cosleeping corresponds to reduced levels of cortisol

Waynforth, D. 2007. “The influence of parent-infant cosleeping, nursing, and childcare on cortisol and SIgA immunity in a sample of British children.” *Dev Psychobiol* 49 (6):640-648.

Baseline cortisol levels with infants are unknown

Price, A., et al. 2013. “Let’s help parents help themselves: a letter to the editor supporting the safety of behavioural sleep techniques.” *Early Hum Dev* 89 (1):39-40.

Attachment theory and crying

Bowlby J. 1988. *A Secure Base: Clinical Applications of Attachment Theory*. London (UK): Routledge. p. 138

Quote from leading researcher (Avi Sadeh)

Sadeh, A., et al. 2010. "Parenting and infant sleep." *Sleep Med Rev* 14 (89-96).

F. Scott Fitzgerald quote

Fitzgerald, F. Scott. 1945. *The Crack-up*. New York: New Directions.
